

Raw cow leather

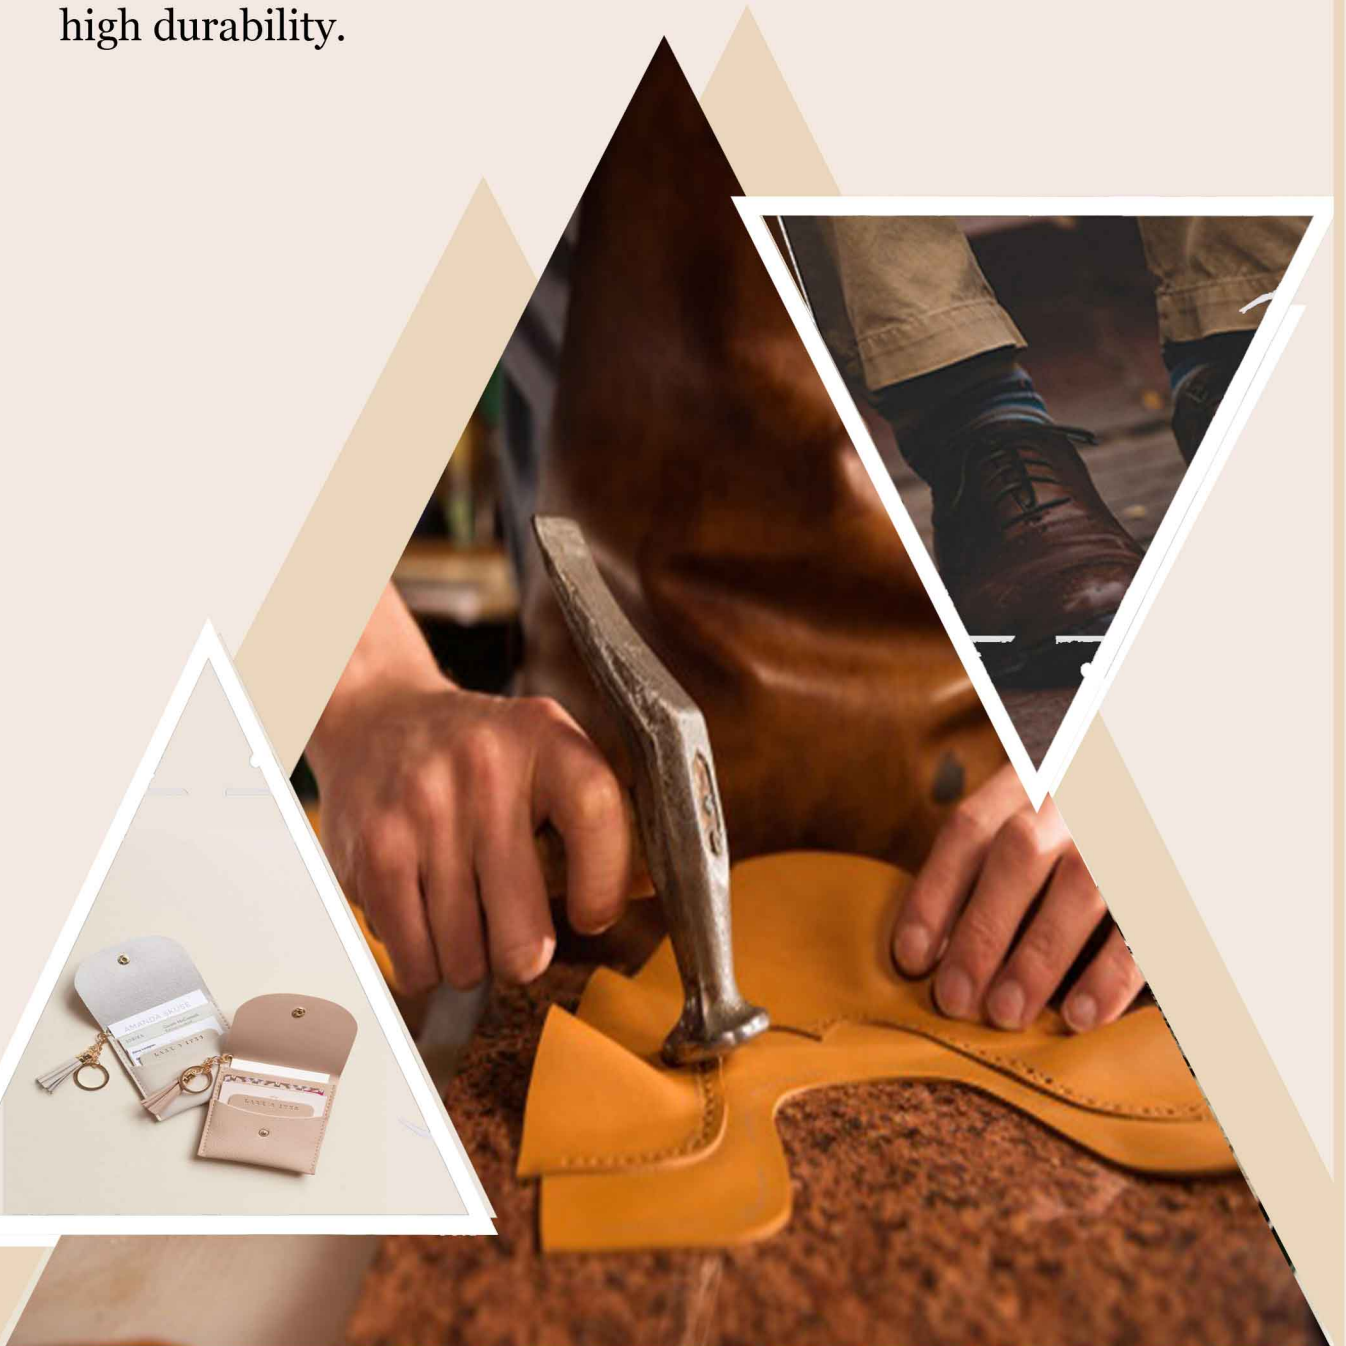

AFROUZLEATHER
Commercial Group

Company Overview

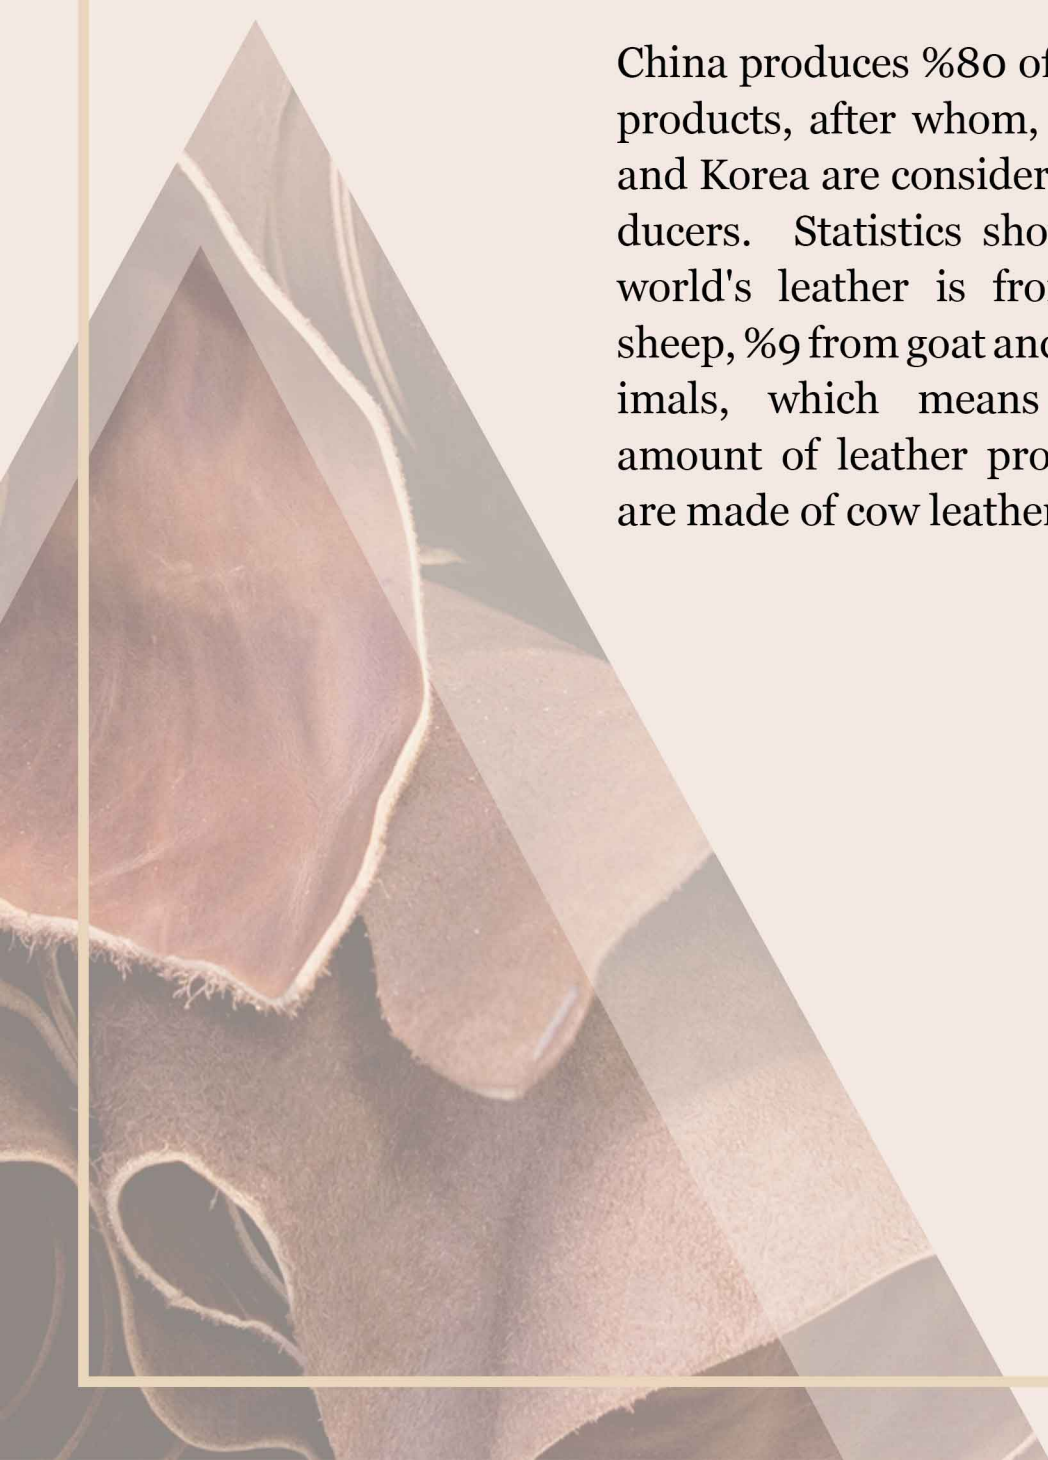

Afroz Leather Trading Company has been one of the most prominent manufacturers of raw cow leather in the Middle East. Using modern machinery and equipment in its production, this company produces various types of raw cow leather to meet different needs and tastes. Afroz Leather Trading Company uses quality control laboratories, the most advanced equipment, and innovative ideas to supply the highest quality leather products to local and global markets. The raw materials used in our production lines are of the highest quality, and for this reason, our products are known for their high durability.

Business description

The sale and purchase of leather goes back to 500 BC. The first leather merchants were the ancestors of the ancient Greece. The Romans were also influenced by the Greek and began to use leather in their handicrafts. Today, leather is used in the production of various products such as shoes, bags, belts, etc. Cow leather is one of the best-selling products in the world due to its high durability and unique qualities.

China produces %80 of the world's leather products, after whom, Italy, India, Brazil, and Korea are considered as the main producers. Statistics show that %65 of the world's leather is from cow, %15 from sheep, %9 from goat and %11 from other animals, which means that the largest amount of leather products in the world are made of cow leather.

Vision and values

Afroz Leather Trading Company intends to maximize its quantity and quality in production by expanding its factories and purchasing more up-to-date equipment and machinery to gain customer satisfaction and popularity in the global market. It also intends to be one of the most reputable producers of raw cow leather in the world's market, and therefore, Afroz Leather will make every effort to meet the needs of all traders and customers around the world.

Mission and Targets

Our mission is to produce the highest quality and variety of raw cow leather to gain customer trust and satisfaction all around the world. In order for this important mission to be achieved, Afroz Leather Trading Company is aiming for the following targets:

- Producing the best raw cow leather using modern tanning techniques
- Supervising all stages of production and performing quality control tests
- Maximizing variety in production to meet all tastes and needs
- Using first-class raw material
